

NAVIGATION POLICY

It is Company's policy to promote and establish sound and efficient Bridge Organisation and Passage Planning with the objective that vessels carry out their voyages safely, efficiently and with utmost despatch.

In order to achieve these objectives:

- Current charts and navigational publications will be provided for all vessels by sub-contracted Chart Agents and constantly updated by a designated officer on board.
- Passage planning utilising all available information will be prepared prior to each vessel's sailing.
- All Officers are to be thoroughly familiar with all navigational equipment which is to be maintained in operational condition at all times. The Officers must also be aware of the vessel's manoeuvring capabilities and of their duties when on watch.

All vessels shall carry out their voyages within the boundaries set by international laws and regulations and operate under the guidelines given by international maritime instructions.
